

Building Thinking Skills® — Level Three Verbal Classifications (Using Language of the Discipline)

EXPLAIN THE EXCEPTION

The following groups of words contain one member that is an exception to the class. Explain how the similar words are alike and how the exception is different.

EXAMPLE:

area, measurement, perimeter, volume

Measurement is the exception. The other words represent things that can be measured. Measurement is the act of determining length, weight, volume, or time

- 1) factors, multiplication, product, quotient
- 2) climate, continent, temperature, weather
- 3) character, force, might, strength
- 4) order, sequence, ranking, value
